

3-Days National Webinar

(22-24 December, 2021)

“THE ART AND SCIENCE OF BIOFLOC AQUACULTURE”

Venue: College of Fisheries, CAU, Lembucherra, Tripura

Who can participate: Students of CAU, Imphal/ Faculty/ Scientist/ Researchers.

Registration fee: Free

Link for registration: <https://forms.gle/KQzpNQLdKz7bztHs7>

About the programme:

In the last decade, the biofloc technology has emerged as a sustainable technology to cater the escalating global fish food demand. Multitude of research on priority species across the countries is attempted to resonate the technology with geographical demand. However, a concrete system requirement related to the key operational parameters involved are yet to be established. In this webinar sessions, experts across the country will share their expertise on the feasibility/suitability and profitability of the system to benefit the students/ academicians/researchers/entrepreneurs.

Dr. Anupam Mishra
Chief Patron

Dr. S. Basanta Singh
Chairman

Prof. Ratan K. Saha
Convener

Speakers

Dr. A. Panigrahi
Pr. Scientist, CIBA
